Arrested for Alleged Conversion and Permitting Prisoners to Escape.

Charged with permitting prisoners to escape from the branch county jail at Niles and of failing to account for \$30 received as bail, Constable Joseph Roderick of Washington township was arrested late yesterday on complaint of the district attorney's office. not ordered released. The matter was called to the attention of the district attorney, with the result of an investigation which disclosed the alleged irregularities.

# The Telephone a Community Builder

TELEPHONE system, like the street cars, is an aid to the city's growth and suburban development. It makes it convenient for the city-employed man to live in the suburbs or country.

"Handy to business" now means a pretty suburban residence or a home in the real country.

Factories are built where land is cheap.

The population of the over-crowded cities flows out into the country, relieving unsanitary conditions and improving the general health of the community.

The telephone has brought the city and country closer together.

The Bell Telephone system is aiding in the upbuilding and growth of 70,000 communities, and giving impetus to the "back-to-the-land" movement.

JAPAN CAUTIOUS.

WASHINGTON, Aug. 12.-Japan's intimation to Mexico that it would receive General Felix Diaz only as a private individual and not as a special envoy caused much comment in official quarters. Coming at a time when negotiations are proceeding between Japanese and the United States on the California alien land law question, this action of Japan toward Mexico was generally construed as showing a desire on the part of Japan to avoid anything open to the construction of being unfriendly to the United States.

It was recalled that when some significance was recently given to the arrival of a new Japanese minister at Mexico city prompt disclaimer was made by the Japanese authorities that any political importance attached to the event, or that the new minister had made any expression on the identity of interests between Japan and Mexico.

## GIRL SEEKS LOST MINING CLAIM

#### Miss Leighton Forsakes Society to Occupy Mountain Cabin.

Despite predictions of her friends that would not stay in the hills long. word has been received that Miss Frances Leighton, society girl, and now B gold prospector, is still hard at work attempting to discover the lost claim of her dead grandfather. The girl is hving in a cabin in the Sierras, and, with a rough diagram of the old mine, is seeking to uncover the reported vein of gold. John Easten, her grandfather, a "49er," discovered a rich vein in the mountains. Before he died, as the result of an accident in his mire, he drew

a diagram. This has been found by his

going over every foot of the claim in the hope of finding the gold. She is the daughter of Mr. and Mrs. C. P. Leighton of this city.

#### SHOW OF NEW FASHIONS TO BOLDLY DEFY POLICE EDICTS

CHICAGO, Aug. 12.-Fashions and police orders will clash tonight at the annual style show of Chicago manufacturers at Orchestra hall. Bloomers, which have been barred from the Chicago beaches, are the feature of the bathing costumes which will be shown. As a concession to the law the designers have placed wide Turkish sashes about the waists, but insist that half hose—also tabooed—be worn with the bath-

ing suits.

While many freakish gowns, such as the "silhouette," the "tango" and the ones with the long slits will be shown, more modest costumes will predominate. The newer styles will have freer walsts and flounces, tiers of them, will be popular. Colored furs are among the new novelties, such as brown skunk,

dyed green, and white lox colored cherry red.

One hundred and fifty beautiful models have been engaged to display the costumes tonight.

THOMPSON PROMOTED

R. F. Thompson, traveling representative of the Howard Automobile Company, has been promoted to the position of sales manager, while R. K. Roberts retains his former post of general manager.

In speaking of the new arrangement Roberts says. "This change is necessitated by the enormous increase in the Eulek business. It has been only a few years since C. S. Heward brought the first Buick car to the coast. At that time Howard acted as his own salesman, demonstrator and racing driver. In fact he was the entire Buick organization

"The first year only 75 of the old two-cylinder cars were sold. The second vear the sales were doubled and they continued to increase in about that proportion each ear until by 1910 the business had assumed such proportions that Howard divided his time between the branch nouses. The business and organization have continued to grow, however, until these duties have become so arduous that the two of us can no longer branche them energy and thas hecome necessary

ous that the two of us can no longer handle them and it has become necessary to add a third member to the executive staff."

From the time he confinences to pay her harded atten-tions the jealous girl ralls into the error of imagining that she has a mortgage on him, as it were. But what is a young man to do if his flances persists in having proof of his love for her? He cannot step into the hollon's den as Daniel did of old, to prove the sincerity of his love. In these enlightened years all feets of daring are taboo. He believes that the fact of his laying his heart and hand at her feet and intrusting his after high handless to intrusting his after life's happiness to her is the best test that could be given or expected.

The man who weds knowingly a jealous the man who wers knowingly a jealous sweetheart who cannot control her emotions of anger is sure to have many a hard battle to lace after wedlock. There are those who wonder why the genial, polite man often becomes a churl after marriage. Wise people may infer that, of all things, he wishes for peace and harmony at home.

Every sweetheart should accept her be-throthed lover's word for it that he is no longer searching for a heart-mate, but that he is well satisfied with the one he has found Jenkusy is a weed which should be uprooted quite as soon as its presence hercomes known a still has no right to form becomes knon. F you are going to dress for the street and have not dusted your gown und coat and hat as you should have done when last you wore them make a vigorous use of the whisk broom, especial-

ly at the bottom of the gown, and see that its braid is neither frayed nor detached, that none of its hems or facings are failing from their proper places, and that its graperies have not become loosened. The prettiest craft that ever sailed the seas loses half its charm and most of its interest unless its deecks are tidily kept and its rigging is in perfect trim, and the same is true of all feminine craft upon

the sea of life. A hint or two about petticoats. If they are the orthodox white variety you cannot be too careful about keeping their edges unsoiled, nor in removing them as quickly as possible when they have arrived in the be-

draggled stage. A white petticoat has been the ideal garment for generations, but one whose purity has been sullied by contact with dust and mud loses all its ideality and becomes a serious detraction to the toilet of any woman, be she beautifut or plain. Colored skirts have their advantage for street wear, since they do not show soil as easily as a white skirt, but even they may become unsightly, and certainly uncleanly, if worn too long without renovation.

Copyright Photo by Schless, N. Y. popular woman lecturer says: "Women often dress themselves to accord with their morning moods and come forth arrayed in some ill fitting garment whose outlines are in keening with their feelings and so distort the symmetery of their figures, whose 'gringiness' represents the cloudy, fretful condition of their minds and whose tattered edges and broken scams are typical of the temporary state of their thoughts.

By and by, having reveled in a sort of misery for some hours, soical necessities compel them to put their persons in order, and by the time a neat and pretty toilet is concluded the dull, irritable, unhappy mood has vanished and the real sunshine of the disposition has driven frown and wrinkle and seowl from the face." It follows that it is advisable always to make as clean and tidy a

toilet as possible on arising in the morning. Remember: Beauty in a print gown and a happy mood will wrest the palm from the beauty who frowns and sulks, even though she lounges about in a costly robe which may or may not be open to criticism regarding its tidiness.

Impeachment Program Is Likely to Prove a Failure

Opponents Appear Unable to Muster Sufficient Strength

ALBANY, N Y., Aug. 12 .- The appointed hour for considering the resolution to impeach Governor Sulzer found his friends and fees in the lower house of the New York Legislature today jeckeying for time to recruit their numbers and to gather in the two score and more absentees from last night's session.

The entire program of imperchment today was imperiled by the absence of 11 men refled on by majority leaders to gather under their standard. This was indi-cated by the vote of last night, when only 65 of the 149 Assemblymen cast

their votes with Levy. MAJORITY NECESSARY.

A majority of the elected members is necessary to impeach. Although 75 votes constitute a majority of the house as it now stands, 75 votes are needed, inasmuch as the full member-ship is 150. One member has resigned since election.

Few assemblymen were in their seats when the hour for meeting arrived and on the Senate side the memdications were that it would be nearly 1 o'clock before the speaker would call the Assembly to order. that the Arcembly should not attempt to rush it through, it is possible that the Accembly will defer its actions for Despite the fact that on the Levy resolution calling for the impeachment of the governor "for willful and corrupt conduct in office and for high crimes and misdemeanors," the Re-publicans at last night's session, which

extended into the early hours of to-day, voted almost solidly against immediate consideration, Minority Leader Himman and several others of that party made it plain that this did not indicate their hostility to the general preposition. Telegrams were sent to each of the 20 Democratic absentees urging attendance at today's session and the

Republican absentees were served with ike notices. Last night's vote on the question of beginning the impeachment proceed-ings without delay indicated that only

seven of the 50 absentees are needed -o make up the 75 votes necessary to tury out the impeachment program. The advocates of this procedure do not anticipate a renewal of the bitterness which characterized portions of last night's debate.

#### 'The Best Play I Ever Saw'

To the Sperting Editor—The best play I ever saw occurred in the sixth inning of a game between the Leland Giants of Chicago and the Mineral Point team. With none out and a man on third, a Mineral Point patter sent a short in field. The Leland Center fielder ran in field. The Leland Center fielder ran in at the crack of the bat and got under the ball a few feet back of second base. Just as he was setting rimsell to liake the catch he slipped on the soft field and fell to a sitting position. The ball dropped near him and he made the catch. The runner on third, seeing his predicament, darted for the plate as soon as the ball struck the fielder's hands, but without any attempt to regain his feet the center fielder from his sitting position made a precise home throw and the runner was an easy out.—F J. R.

Slagle was just as Slagle hit the plate. Slagle was out but daloney sild under Slagle and was declared safe—Ray Brown.
